

# IMPORTANT

Fill in measurements from inside the bay looking out.

\*\*NOTE: The door section will generally be 2" wider than the door opening itself and will overlap each edge by 1". Please factor this extra 1 inch into your measurement for letters A and D.

A: \_\_\_\_\_ Measurement from **edge of door** to edge of cut out      D: \_\_\_\_\_

B: \_\_\_\_\_ Height of cut out      E: \_\_\_\_\_

C: \_\_\_\_\_ Width of cut out      F: \_\_\_\_\_

By signing below I understand that the conveyor cut-out will be made exactly to these measurements I have provided.
