

# Wiring Diagram for Telco Eyes in a Standard Airlift Control Box

## Telco Amplifier

**\*\*CAUTION\*\***  
 Telco safety eyes are equipped with a Safety Up feature that will open the door in the event of a power failure. If you do not want the door to open after a power failure, you must use our magnetic limit switch with these eyes to eliminate this feature.

**Transmitter**  
 (Red & Black Wire)

**Receiver**  
 (Yellow & Shield Wire)
